

## QUALIFYING STANDARDS

Events in **bold** will be contested at the Championships. Events listed directly below those being contested may be used as alternates for qualifying. See Qualifying Guidelines below for full details.

USATF may accept a non-qualified mark to fill the field only if there is an insufficient number of athletes entered who have met the qualifying standard for that event. In this case, the sport committee may accept entered and declared athletes (who have not met the qualifying standard), up to a maximum of the maximum field sizes indicated.

\*F.A.T. is the only method of timing acceptable for qualifying marks for events listed with an asterisk. Times submitted in hundredths of a second, must be fully automatic times.

\*\*A manual time may be used for qualifying in events with a double asterisk only if no fully automatic qualifying time exists for the individual in that event during the qualifying period. A manual time may not supersede any fully automatic qualifying time for an event. Qualifying manual times, for eligible events, not already listed, are always the FAT qualifying time without the last zero. Manual times will be converted for seeding purposes using USATF Rule 166.7.

The Sport Committee Chair will adjust the standards, where necessary, forty-five days prior to the competition, based on received entries at that time. Therefore, early submission of an entry close to the standard is advised.

Additional competitors, from those who have submitted entries, may be allowed to declare through petition to the Sport Committee Chair.
